

# ADVANCED 5-PIECE HOIST SYSTEM

## WORKING AT HEIGHT SYSTEMS & KITS

### 1 OVERVIEW

The Advanced Series Hoist Systems are designed for manhole and confined space entry/retrieval applications. These units are constructed of lightweight materials including high-strength aluminium. The Davit pivots for ease of rescue and has a limited adjustment for overhead clearance restrictions. The lower base adjusts to fit most standard entries. Many other bases are available. Options include lower masts to match overall height requirements.
